4G GSM INTERCOMS

INSTALLER BENEFITS

4G CONNECTIVITY

- 4G backwards compatible. Allowing access across 4G, 3G and 2G networks.
- Increased reliability in poor signal areas.
- No feedback from close aerial placement.
- Horwood quality sound.

SMS ALERTS

- Service updates allow you to send a notification to you and your customer to let them know a service is due.
- Balance update on PAYG SIMs.
- Aux input triggered via 3rd party equipment.
- Configurable SMS notifications.

EASY INSTALL

- Minimal components means reduced time on site: 1x power connection, 1x aerial connection and 3x relays. Other connections for the aux input and alerts may be required.
- Easy programming via GSM ONE App and SMS.
- Telguard Telecom SIM Card included.*
- Compatible with all voice and data enabled SIM cards.
- Mounting template provided.
- Faceplate parking slot, to facilitate ease of installation.
- Overvolt and polarity LED indicators.
- Network LED's indicate the network status and signal strength.
- Relay confirmation LED's.
- Helpful and Informative website

EASY TO USE

- Calling existing landline or mobile phones.
- Answer calls from anywhere in the world.
